

Keep Lever Voting Machines!

Supporters Needed to Attend

PRESS CONFERENCE

on the steps of City Hall

Wednesday, Oct. 28, 2009

12:45 – 1:30 PM Promptly

City Councilmember Helen Foster is introducing a new Resolution to Keep Our Lever Voting Machines!

Lever voting machines, supplemented by our accessible ballot marking devices (“BMDs”) for voters with special needs, are the ONLY AFFORDABLE and MOST SECURE equipment for our future elections.

New York needs to pay attention to our national and statewide economic crisis NOW, and stop all plans to replace our affordable, secure equipment with expensive new equipment that we cannot afford to purchase and cannot afford to handle securely. Help support Councilmember Helen Foster and this resolution!

How to get to City Hall in Manhattan by subway:

N or R to City Hall

4, 5 or 6 to Brooklyn Bridge

J, M, or Z to Chambers Street

2 or 3 to Park Place

More info: Teresa Hommel, 212 228-3803
