## **Our Message**

I want to keep the lever voting machines. I don't want New York to switch to any other voting method. Everyone knows by now that we can't afford to replace our lever voting machines, and if we do, we won't be able to afford to do it right -- we won't be able to secure the paper ballots by observation, and verify the computer vote-count by sufficient audits.

What are you doing to help save our lever voting machines? Some law is involved, but this issue seems to be driven more by money and politics. Where there's a will there's a way. Do you have the will to get us out of this mess?

### **Extra Message for Senators and Your Representative:**

The Help America Vote Act (HAVA) has always allowed lever machines if used along with accessible voting devices for voters with disabilities. Vendor lobbyists have confused everyone. Please pass an amendment to clarify that we can keep our lever voting machines!
